

**Webinar**  
**May 23, 2012**  
**10:00-11:30 a.m.**

***BULLSEYE***  
***PA Dealers Targeted by***  
***State and Federal Regulators***

*Presented by:*  
***Rob Stansbury, KPA***

With the economy still on the rebound and an ever increasing deficit, both the State and Federal governments are looking for revenue. Unfortunately for the dealer community, there seems to be a large target directly on their back. In the last 2 years alone, the number of inspections in SIC code 5511 (auto related) have more than doubled when compared to the previous 4-year stretch. The bottom line question that you, as a business owner, need to ask yourself is this: If OSHA/EPA/DEP/L & I showed up at my door today, would I be prepared for the inspection?

These government agencies are looking for two types of compliance—bureaucratic documentation and physical shop compliance. One deals with required documentation and employee trainings, the other with how things are stored and labeled in the back end of the dealership. This webinar will cover the following topics:

- **Why the government is coming out to your dealership**
- **What they will request that you produce**
- **What happens if you cannot provide them with what they request**
- **Do you require an SPCC plan**
